

Stakeholders' resources

SOURCES

- Please add here the stakeholders as defined in the document "Stakeholder mapping"
- Please add here the resource streams they contribute to; for example the F&B partner will contribute to Food streams

Stakeholders contributing to this waste stream	Waste stream

SORTING PROCESS

Please add your waste partners for collection and handling here

PROCESSING

Please add here streams that fall outside of your mandate; for example international catering waste, other streams from airlines, other operations

Please continue the brainstorm per resource stream with the 9R model in the document "Co-creation 9R framework"

Circular Economy	Strategies	
Smarter product use and manufacture	R0 Refuse	Make product redundant by abandoning its function or by offering the same function with a radically different product
	R1 Rethink	Make product use more intensive (e.g by sharing product)
Extend lifespan of product and its parts	R2 Reduce	Increase efficiency in product manufacture or use by consuming fewer natural resources and materials
	R3 Reuse	Reuse by another consumer of discarded product which is still in good condition and fulfills its original function
	R4 Repair	Repair and maintenance of defective product so it can be used with its original function
	R5 Refurbish	Restore an old product and bring it up to date
	R6 Remanufacture	Use parts of discarded product in a new product with the same function
Useful application of materials	R7 Repurpose	Use discarded product or its parts in a new product with a different function
	R8 Recycle	Process materials to obtain the same (high grade) or lower (low grade) quality
	R9 Recover	Incineration of material with energy recovery
